SUMMARY

Software Engineering student at TAMK with hands-on experience building and deploying real systems — most recently a Raspberry Pi digital-signage application running a Node.js/Express server in production. Comfortable working across the stack with Python, Java, JavaScript and Flutter, and used to Git version control, Linux and basic networking from coursework and project work. Strong academic record and a growing focus on cybersecurity. Looking for a junior or trainee software developer role where I can keep learning through real work.

EXPERIENCE

Software Engineering Intern — Tampere University of Applied Sciences, A3 Info Screen Project May 2026 – July 2026

- Built a digital-signage system for a campus corridor display: a Node.js/Express server on a Raspberry Pi running a fullscreen slideshow of images and video.
- Developed a web upload dashboard so staff can add and manage on-screen content without accessing the device directly.
- Deployed and maintained the application on the Pi using pm2 for process management and automatic start-up, with remote administration over SSH on the campus network.
- Managed the codebase with Git on TAMK GitLab, handling deployment configuration and branch-based releases for a real customer.

PROJECTS

StudyFlow — Mobile Study App Flutter, Dart, SQLite

- Built a cross-platform study-management app with a teammate, using local SQLite storage for offline data persistence.
- Collaborated through GitHub and delivered against a fixed presentation deadline.

Maze-Solving Robot Arduino Mega, C++

- Programmed an autonomous robot to navigate a maze using a north-priority pathfinding algorithm, integrating sensor input and motor control.

Linux Cloud Server & IoT Coursework Ubuntu, CSC cPouta, Embedded C

- Configured and maintained a Linux cloud server on CSC cPouta; built embedded exercises using UART and I2C communication and basic database / SQL design.

EDUCATION

Tampere University of Applied Sciences (TAMK) — Tampere 09/2025 – Present
Bachelor of Engineering, Software Engineering · GPA 4.59 / 5

South-Eastern Finland University of Applied Sciences (XAMK) — Mikkeli 09/2024 – 04/2025
Degree Programme in Information Technology · GPA 4.82 / 5

Bui Thi Xuan High School — Ho Chi Minh City, Vietnam 09/2021 – 04/2024
Top Student Academic Achievement Award (2021, 2022, 2023)

SKILLS

Programming: Python, Java, C++, JavaScript, Dart, SQL

Web & Backend: Node.js, Express, HTML / CSS, REST APIs

Tools & Systems: Git / GitLab / GitHub, Linux, Raspberry Pi, pm2, SSH, SQLite

Concepts: Networking, Algorithms, Problem solving

LANGUAGES, CERTIFICATIONS & AWARDS

Languages: English (C1), Vietnamese (Native), Finnish (A2)

Certifications: IELTS Academic — 7.5 overall (C1); Hygiene Passport

Awards: Most Innovative Student of the Year (2021), Best Overall Student (2024), Computer Innovation Project Leader (2023)
